

Fire during a firefighter strike - **do you know what to do?**

**GET OUT
STAY OUT
AND CALL
999**

On Wednesday 13 November between 10am and 2pm, firefighters are planning to go on strike. **In the event of fire, you should still get out, stay out and call 999** – you will get an emergency response.

Here are six important steps to take to make sure your home is safe:

- Make sure you have smoke alarms on at least every level of your home
- Smoke alarms save lives, but only if they're working. Test them regularly
- Stub cigarettes out properly and dispose of them carefully
- Plan your escape route and make sure everyone knows how to get out in a fire
- Take extra care in the kitchen and never leave cooking unattended
- Do not overload electrical sockets. Watch out for faulty and over-heating electrical equipment, and wiring/cables
