

- 1) Operating times don't tally
- 2) open countryside
- 3) vehicle movements
- 4) noise
- 5) water mains leakage
- 6) speeding
- 7) air pollution
- 8) planting scheme and tree growth
- 9) direction of traffic to the site
- 10) house prices
- 11) more suited to brownfield site
- 12) flooding
- 13) 20,000 sq m of concrete
- 14) the application does not accord with policies 21, 21 & 23 of the CLP and Policy 16 of the GGP-NP.
- 15) Brownfield sites do not appear to have been properly explored
- 16) definition of agricultural land should be 3a not 3b
- 17) 2 storey office block with 13 desks, 2 board rooms, 2 kitchens and 11 toilets for 5 part time staff
- 18) no community consultation
- 19) report states houses to east at 650m away at Roseworthy but measured with trundle wheel at approx 250m away.
- 20) States office unit will screen properties from noise but it is the houses to the eastern side that need the protection
- 21) The noise assessment does not properly deal with HGV's excavators, shredder etc.
- 22) ecology report, this is not a straight swap of the Lelant site, 3 times the amount of waste will be permitted
- 23) consequence to valley if lagoons leak or overflow
- 24) 300m of ancient hedge to be destroyed
- 25) waste water to be sprayed around entire site will spread around valley too
- 26) Ecology report not thorough, taken at wrong time of year and for short period of time
- 27) fails s211 of nppf.
- 28) traffic through Connor Downs was already speeding and would only get worse
- 29) taken several pictures of the site from across the area and the visual impact of the proposal was great particularly from Camborne
- 30) This would set a precedent for expansion onsite and the greenbelt would be lost.
- 31) would open the site up for other types of waste in the future, future contracts?
- 32) why are you moving from St Erth
- 33) the application stated there were no drains/watercourses but there is a spring on the boundary, raised concern about the spraying onsite which could get into watercourse.
- 34) issue of pollution last year in the river which turned it red and went all the way down to Gwithian beach
- 35) if this application is approved it won't be enforced by EA and other bodies
- 36) S106 is just a carrot
- 37) Traffic calming scheme put in Roseworthy is a joke
